WORK EXPERIENCE

Video Streaming Website :

05/2019

This is my first website which I have created by my own with no help only I use internet for help purpose. While making this project I have learnt :- uploading,form,login, MySQL, like button which get insert in db , favourite wishlist according to client, search button, changing video src server , sign up page, automatically video backup. (because in case of my video delete) .then I all so learnt how to host a website and purchase hosting server and domain.it have it's own admin uploader.

Customer Relation Manegment

me with my senior dev make CRM Which is Connected with 43 website,function like product deliver, paid data unpaid data, client info, tracking function, mail chat system , employee active time, employee sales and process system, campaign

Blog Websites :

10/2019

Basically I created simple vlogs websites and While making this project I gain knowledge of :-optimising with the help of PHP function and object oriented php

Songs Streaming Website :

08/2020

This is a songs streaming and downloading website in this website I have search bar filter by singer> gender> language> and view by rate or latest> album or movie songs. By this website I get knowledge of :- filter from MySQL database , better search page, convert PHP to HTML automatically by one click (using PHP)

Stock Marketing website

While doing this project I learn :- mathematics very deeply

SUMMARY

I have 1+ year experience . I have an interest in new complex coding. Knowledge of making CRM using core php,CMS and also API. If you wanna look my PHP code, then go to my GitHub.(given above). THIS I HAVE LEARN IN PHP :- PHP form page ,upload file, insert , update, delete ,Read from db via PHP , login and registered page , mathematical ,filters page,search page from db via PHP, Object Oriented PHP, Payment gateway,send SMS, send mail, Send whatsapp message,google and Facebook login integration, ajax, optimising code using function.
